# the LUGDAWG Truck Wheel Lock

Made in **USA**

For more information visit [www.neffcotech.com](http://www.neffcotech.com) or call 888-741-3113

The **LUGDAWG** is a wheel securing lug nut cover. Fits all hub piloted wheels with M22x1.5 studs.

Conveniently covers existing lug nuts. - no removal or replacement required. *Installs in minutes!*

Construction includes a durable aluminum outer housing and plated steel inner hub nut. A 3/4" hex bit is required in the hub nut to install and remove the **LUGDAWG**. Once installed, a lock cylinder obstructs the hex socket preventing removal. The aluminum housing simply spins freely and will not loosen the **LUGDAWG**. Can be keyed alike for dealers or fleets.

Consumer version features:

Counter-weight that maintains wheel balance.

Chrome nut covers that conceal the **LUGDAWG**.

Dealer lot security version features heavy duty lock-only unit. No chrome cover.

The Lugdawg is a theft deterrent device. No guarantees against wheel theft are made or implied.

**Results say they work!**

**We'll guard your nuts!**
