STRONG, SAFE, VERSATILE

Deburring, polishing and inspection are a few examples where placing the part on the Workpiece Spinner makes the whole process faster. There are unlimited applications throughout most shops and manufacturing operations where this heavy-duty turntable can make even simple tasks easier and more efficient.

Product feature & benefits:

- Ergonomic design reduces wrist action by operator.
- Rugged cast iron construction provides durability.
- Precision high-load ball thrust bearings allows easy operation.
- The design naturally shields the bearings from dust and contamination but is easy to clean and lubricate.
- 9,200 pound load capacity.
- Quality made in the USA.
